

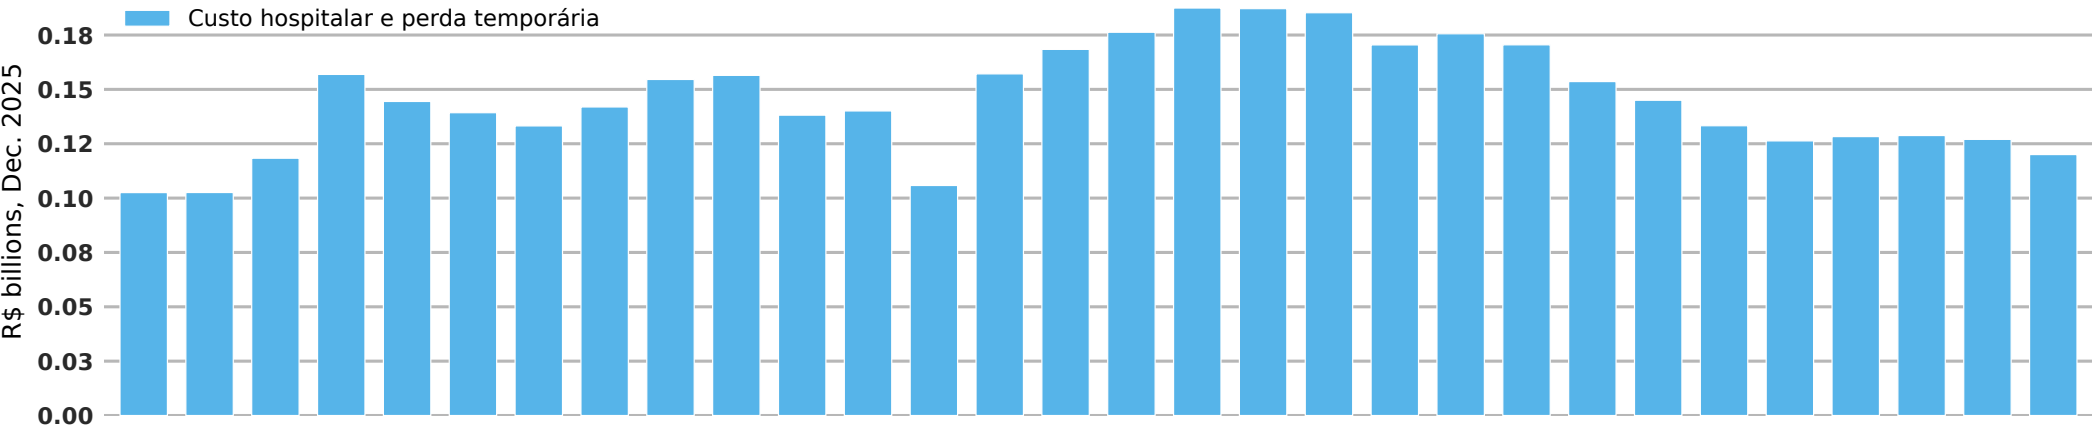

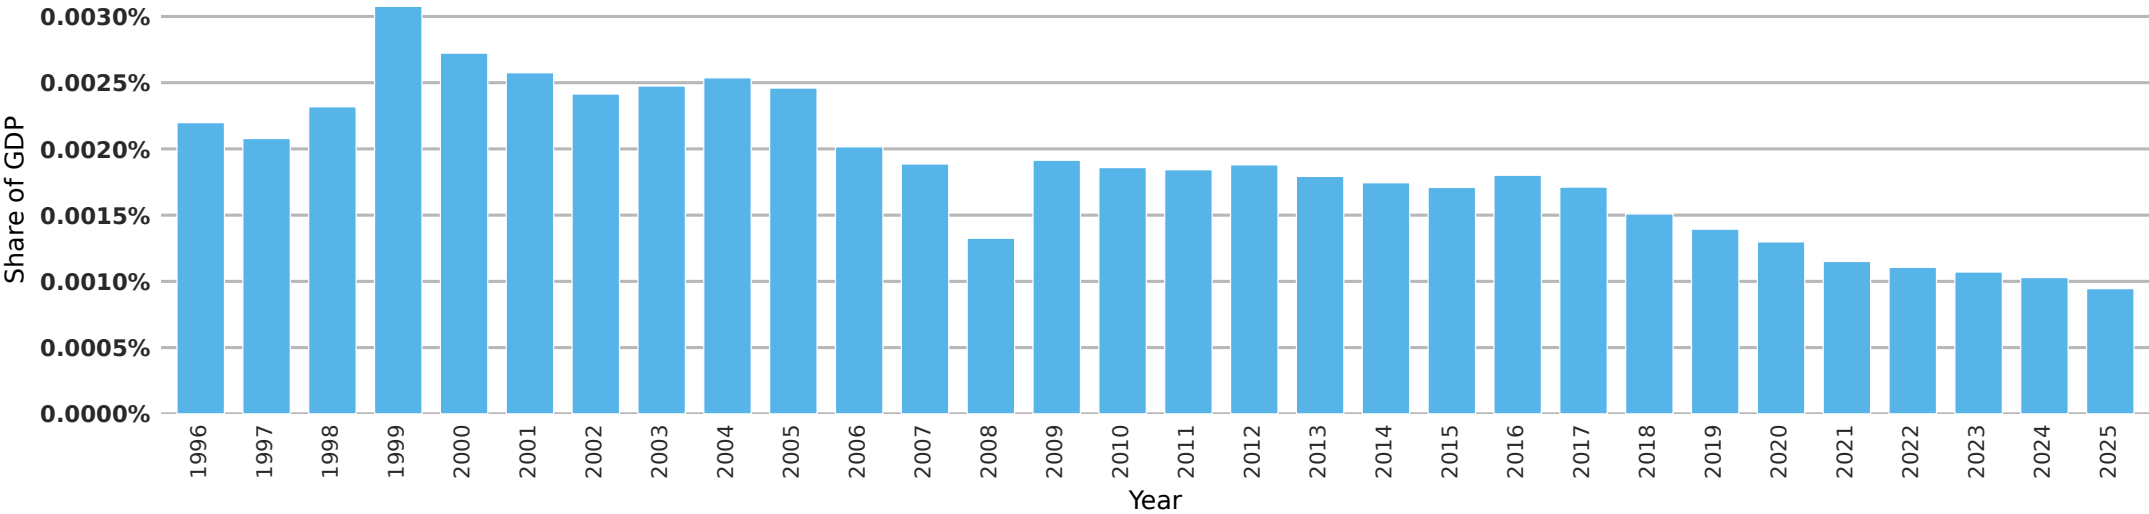

Figure 12. Brazil: medical and therapeutic costs of violence

1996-2025 | SUS hospital admissions and productive loss during the stay

A. Real values

B. Share of GDP

Source: Authors' calculations using SIH/SUS microdata and 2025 Continuous PNAD income profiles. Values in December 2025 reais. The measure combines assault-related hospital payments and temporary productive loss during nonfatal stays; it excludes outpatient and private care and time away after discharge.
